

## Countdown Assignment Audio Production

You're almost done! Just one more assignment I want you to learn.

1. Now you need to download another piece of audio from my website. You will find it in the same place you found the Bart Simpson Audio - this time, the tab is called **Countdown**.
2. Select the clip **Countdown from 10.wav** and click **DOWNLOAD**, then **SHOW ALL**, stagger your windows so you can see both your downloads and your H: Drive, then drag the clip into your audio folder in your H: Drive, make sure it is saved as a .wav file.
3. Watch the video **Audacity Editing 101 - 12 tips in 10 minutes** located on my website. Follow his instructions with the piece of audio that you just downloaded.
4. Once you have completed the editing as per his instructions, save it as a .wav in your Audio Assignments folder as "**Last Name, First Name - Countdown.wav**"

**The End!!**
